Editors Message :

The 51st Annual Scientific Congress of the SLCOG with the theme of "Meeting Challenges through Professional Development" and the contiguous academic training workshops were the highlights of the second quadrimestre of the college activities. Eleven members were elevated as fellows during the inauguration on the 11th of August.

The PPIUD programme was concluded successfully with three SLCOG orations and religious programmes during this period. I am sure you will enjoy the pictorial overview of the college activities in this issue.

I hope an over view of the events will entice more of our members to participate in the social as well as the academic activities of the college.

*K. Muhunthan
Editor SLCOG*
